EDUCATION

Tecnologico de Monterrey <i>Coding Boot Camp</i>	Remote Aug. 2023 – Feb. 2024
• Relevant Coursework: Web Programming, OOP, Software Architecture and decision making.	
Y Combinator <i>Startup School</i>	San Francisco, CA (remote) Aug. 2021 – Sep. 2021
Tecnologico de Monterrey <i>Bachelor of Science in Business Administration</i>	Guadalajara, Mexico Aug. 2019 – Dec. 2020
• GPA: 94/100	

EXPERIENCE

Hammtiell Technologies <i>Freelance, Product Manager, Front-End Developer</i>	Guadalajara, Mexico Jul. 2024 – Present
• Establish Agile rituals (planning, stand-ups, retrospectives) and backlog refinement (Jira, Linear) while authoring PRDs and acceptance criteria, prioritizing by impact to improve on-time delivery .	
• Guide clients from idea to product through discovery, prototyping, and phased releases.	
Kontratista <i>Co-Founder, Product Manager</i>	Guadalajara, Mexico Jan. 2024 – Jul. 2024
• Developed an MVP using MS Teams and Asana , integrating APIs and automating pipelines to streamline communication and project management between construction sites and administrative offices. This approach enhanced productivity and accelerated the digitalization of workflows by leveraging industry-familiar technologies.	
• Led on-site construction site visits and user interviews; provided contractor consulting and business analysis; co-created with 10 design partners to surface and resolve real-world deployment pain points, ensuring ease of use through user feedback and structured problem-solving.	
Docstay (Airbnb for medical offices) <i>Chief Executive Officer, Product Manager, Front-End Developer</i>	Guadalajara, Mexico Jul. 2021 – Jan. 2024
• Led platform development , overseeing the design and selection of the software architecture and tech stack (React, Next.js, GraphQL on Google Cloud) , created a custom design system , and integrated Stripe Connect for payments and Cal.com API for appointment management.	
• Increased occupancy rates over 20% (avg) for doctor office owners by enhancing customer experience with an Airbnb-style interface , 360° Floorfy tours, and professional photography. Increased efficiency by 7x with a management dashboard integrating Cal.com API for appointment visualization, Google Calendar sync , and monthly growth reporting , while ensuring security with ID verification for health professionals.	
• Bootstrapped platform growth without a marketing budget, successfully listing 60+ well-equipped doctor offices across 4 states (Jalisco, CDMX, Sonora, Nayarit) covering 10+ specialties , and managed over 900 hours booked through Docstay .	
• Assisted over 100 distinct patients and 40+ health professionals , leading to an average 3x increase in patient numbers and income for health professionals who used Docstay.	
• Led marketing and sales initiatives across social media, email, WhatsApp, real estate platforms, and universities, while also managing SEO and SEM , including metadata and code optimization .	
Innovating <i>Co-Founder, Product Manager, Front-End Developer</i>	Hermosillo, Mexico (Remote) Sep. 2020 – Jun. 2021
• Led the development of a fully digital real estate purchasing platform based on Zillow's model, securing \$25k USD in funding from angel investors in Arizona and Sonora.	
• Designed and selected the software architecture and tech stack, including React, Next.js, and GraphQL on Google Cloud .	
• Managed implementation and CI/CD integration; applied Agile methodology with a remote-first approach; and led documentation to maintain clarity and consistency across the project.	

PROJECTS

Founder Jalisco Tech Week	April. 2025 - Present
• Co-founded Jalisco's first statewide Tech Week; orchestrated 90+ events in 6 days (hackathons, panels, networking), creating the state's largest tech/startup movement .	
• Technical Co-founder role (PM & Front-End): built and led a senior engineering team to deliver jaliscotechweek.com —a React/TypeScript/Astro platform integrated with the Luma Events API for discovery, registration, and schedules.	
• Scaled operations and platform to serve 4,000+ attendees over six days; centralized communications and logistics, connecting founders, software engineers, and investors.	

ACTIVITIES AND LEADERSHIP

Global Shaper World Economic Forum	Mar. 2024 – Present
• Responsible for identifying new talents and cultivating the potential of young leaders, overseeing their development, and fostering collaboration within the Guadalajara Hub and other hubs nationally and internationally .	
Community Founder Mariachi's Valley	Nov. 2022 – Present
• Host events and manage a community of 250+ technical startup founders , which had collectively raised over \$100 million USD , including founders from YC and 500 Startups .
